The History of ADA and CBC: Past, present and future

TIME: 1:30 – 2:30pm

EARN: 1.0 AIA HSW/ADA LU (and documentation for CA licensure renewal)

LOCATION: Cavignac & Associates, 450 B Street, Suite 1800 (Enter on A Street), San Diego, CA 92101

PRESENTER: **Paul A. Joelson, AIA, CSI, CASp**, a licensed architect, certified access specialist, general contractor and certified building inspector, Joelson has specialized in the reconstruction design and management, ADA compliance assessments and quality control consulting during a 37 year career. Over the last 15 years, he has provided consulting and expert services on the following issues– distressed properties in litigation; disputes over architect, developer, builder and subcontractor performance; repair plans with cost estimates and management to implement reconstruction programs. Joelson holds a bachelor of architecture from San Diego's NewSchool of Architecture and Design and is a member of AIA San Diego, Construction Specifications Institute (CSI), and Forensic Consultants Association– San Diego (FCA).

LEARNING OBJECTIVES:

1. Analyze federal civil rights laws and the history of ADA 1990
2. Explain the federal access standards and how they relate to current codes.
3. Discuss the California civil laws and the historical California Building Code timeline.
4. Discover recent changes per CBC–2007 and pending ADAAG revisions.
